

DAILY NEVADA STATE JOURNAL

PRICE OF DAILY JOURNAL,
12 CENTS PER WEEK.

TOWN AND COUNTY.

BREVITIES.
Charming weather.
Are you going to the circus?
The warm weather has come.
The Essex saw mill is running.
Stocks were a little weaker yesterday.
The Journal Job Office is crowded with work.
J. A. Hamlin was down from Essex yesterday.
Go to Lange & Schmitt for paints and brushes.
Senator Emmitt has returned from his trip up north.
Thos. Winters will leave for the East tomorrow morning.
Parasols for everybody at Ed Northrop's at 25 cents up.
Prof. Buck, the writing teacher, has undered back to Reno.
Sheriff Kyle, of Eureka, now of Virginia, was in town Sunday.

New Sateens and an elegant stock of white goods at Ed Northrop's.
The Reno public schools will be closed today, all on account of the circus.
Go to Lange & Schmitt for garden hose, mowers, and ice cream freezers.
Is now your time to buy carpets. Big reduction in carpets at Ed Northrop's.
The country folks will be in town in force to-day, and all on account of the circus.
The Carson schools were closed yesterday to permit the children to go to the circus.
John R. Bradley came in from Elko yesterday evening, and went over to Carson today.

Thos. Derby, of Virginia, was in Reno yesterday, with a view of investing in property in this section.
The N. C. & O. has changed time. It leaves here at 9 o'clock a. m., and arrives here from the north at 7:30 p. m.
Allen T. Bird, representing the Pacific Coast and Loan Company, of San Francisco, is in Reno advancing the interests of that company.

The Virginia and Truckee Railroad company has just adopted the automatic system on their local trains between Reno and Virginia.
Ben Nicholson, of New Mexico, is up at that section on a visit to his sister, Mrs. Dr. Bergstein.

Capt. Griffin says the new Paymaster General is in 860 feet, and he thinks they will strike the ledge pretty soon. Hope they will find a big bonanza.
Clarke, the conductor of the train that caused the accident at Laughton's, is now brakeman on a Montana railroad.
The engineer, is also up in the northern country somewhere.

The Supreme Court of California has decided the right-of-way suit between A. Ross, Mrs. Farley et al. vs. The N. C. O. R. R. Co. in favor of the railroad, affirming the decision of the lower court.

C. W. Bouton, of the Opera House Dry Goods Store, has just received one of the best at selected stocks of men's and boys' clothes ever in our city, and at prices that can't be beat. Nolan & Bros. fine shoes a specialty.

Mrs. W. S. Johnson has commenced suit in the District Court to compel Al. Hyde to remove the room built over the livery in the rear of the Palace Hotel, and claiming \$3,000 damage to the Arcade hotel property.

The Nevada & California Narrow Gauge railroad was incorporated last Friday with Francis Tieran, R. L. Walker, W. S. Williams, all of Kansas, as Directors. This road is to run across the State through the counties of Lincoln and Nye.

Little Eddie Caughlin fell into the Long-ditch, below the iron bridge, last Saturday, but Wayne Beck, another little fellow, had the presence of mind to hold onto a plank across the ditch, so Eddie could catch on, and thereby saved from drowning.

Tom. Barnett, the old pioneer, is receiving an immense stock of Summer clothing and other articles in his line. His store is crowded, and prices are cheaper than ever. Give the old man a call and get a bargain. Read his new ad. and profit by what he says.

THE TIMBER SUITS.
summons Quashed and Service Set Aside.
In each of the timber suits in the U. S. Circuit Court, at Carson, against the Richmond Con. Mining Company et al., the E. F. F. Railroad Company and each of the suits against private parties in Eureka and White Pine counties, Judge Sabin quashed the summonses and set aside the service. The attorneys for the Eureka Con. Mining Company made no motion to quash the summonses or set aside the service, but acquiesced. That company stands served.

Rich Ore.
The Lyon County Times says a sack of ore weighing 124 pounds, from the Pamlico mine, near Hawthorne, recently yielded \$8,200. Seven sacks yielded \$14,000. The vein is thin and the ore is found in bunches.

Reno, Nev., has 806 school children.—J. F. Balliet.
The Bulletin should correct the above as to read that Reno has 506 school children on the north side of the Central Pacific track, and when the census is completed it will show that Reno has more than 1,000 school children, and about 1,300 boys and girls under 21 years.

MILITARY POST.

The Land and Conditions Required—Major Gordon's Views.

The following letter from Major D. S. Gordon, Commander at Fort Bidwell, will be read with interest at this time upon each of the seven hills of Reno:

Fort Bidwell, Cal., May 13, 1889.

Mr. C. C. Fanning, Reno, Nevada.—Sir: It gives me great pleasure to acknowledge receipt of your letter with the accompanying suggestions or ideas of a military post and the necessary requisites for convenience and health of men and animals. First, the post reservation should consist of from 100 to 150 acres of land or more, if it could be had for the purpose of buildings, drill and grazing grounds, situated some three and a half to five miles from the city and above, on a good, high, commanding position so as to be easily drained and accessible to a good, large, pure stream of mountain water sufficient for the troops, animals and irrigation, if necessary. And further, in locating the same, due consideration should be given to the necessity of building a branch railroad to the post for the purpose of delivering military supplies, so as to economize labor loading cars. Store houses should be built in view of this great convenience. Very respectfully,
Your obedient servant,
D. S. Gordon,
Major 2d Cavalry, Commanding Post.

Advertised Letters.

First, Funniest and Best.

The San Francisco Post says of the "Bunch of Keys":

If a comparison were drawn between the present "Bunch of Keys" company and that which was playing at the Bush-street a few years ago, it would be favorable to the present company. The company is decidedly clever, and though the piece is noisy there seems to exist an impression in the minds of each of the company that the success of the play depends upon the work that each individual can accomplish. Mackie makes as good a Grimes as did Canfield, while Louise Sanford as Teddie, made quite a hit. The rest of the company are bright and active. The audience was large and seemed to enjoy the play as heartily as when it was first presented here. An excellent thing about this company, they act with a vim, and there is no time throughout the three acts when the fun is allowed to relax.

Gone to the Boneyard.

The Emerald News, published at Hawthorne, has given up the ghost, and the Walker Lake Bulletin is now the only weekly printed there. The News was always a clean and creditable paper, and it deserved a better fate. Of its demise the News says:

Owing to the dull times in this section at present and the recent appointment of the present editor and manager to the office of County Clerk of Esmeralda county, it is thought advisable to close the paper for a short time. Thankful to our many friends for favors extended we bid you adieu, hoping that with better times the News will put up an appearance. Any person wishing to buy or lease the plant can do so by corresponding with S. H. Rosenthal, Hawthorne, Nevada.

No Work on Sunday.

The Enterprise says:
We understand that the north-end mines, controlled by John W. Mackay, will stop operations on Sunday, commencing with the first of June.

The vote which was taken a few weeks ago resulted in the movement being carried by 38 majority, taking every miner working north of the Savage.
John W. Mackay is in favor of Sunday closing. General B. P. Keating the factors it, and A. O. Hamilton is indifferent. This being the situation, we believe every mine on the Constock from the Utah to the Imperial will stop work on Sunday within a very few months from the present time.

Work for the Police.

The Carson Appeal says:
Parties complain that a scallawag frequently appears in Ed Sweeney's lot, who insults school girls on their way to and from school and yesterday made an indecent exposure of his person. He has done this several times. He dresses in dark clothes with a high collar and a tall and slim, wearing a light hat crimped in the center. He has a light reddish mustache. The parents of the children will shoot him if they can catch him at his work.

Military Post.

The Military Post Committee went up the seven hills Sunday, and took in the country on both sides of the river between Laughton's and Reno. The high bench on Mayberry's place was voted a grand site. After visiting three or four other places the Committee will be ready to report.

Storming up the Humboldt.

The Silver State, of last Saturday, says: The railroad men say it rained steadily for twenty-four hours up at Humboldt Wells this week, and closed with a snow storm, which was followed Thursday by more rain. They say the Humboldt river is higher than it has been for a year as far west as Beowawe.

State Senator John Forbes and Mr. James Yerrington are in from Hawthorne to spend the day at their old home. Jim feels and looks like a young millionaire.—Carson Tribune.

Jim is just one of the boys the Journal would like to see a millionaire. He wouldn't sit down and count the twenties every hour, but would give his money a chance, recognizing that it is more valuable for what it will purchase, than for what it is.

U. F. SURVEY.

The Connection Made Between Beckwith and Reno.

On Saturday last the Bethel and Kyle surveying parties made the connection between Reno and Beckwith, and yesterday morning Bethel and his men left for Ojden, from which place they will receive their orders for future work. The line in this vicinity runs from a point three miles east of Reno northwesterly to the low hills back of Lemmons' house, on the Peavine ridge. A line was also run direct into Reno from the point three miles east. At some future time, it is believed by Bethel, a line will also be run around west of Reno and up the Dog Creek country. The Journal does not mind where they run their lines, if they will only build the road this way somewhere.

"Ours."

We wish to call the attention of the public to the exceptionally fine cast of characters in "Ours," the three act comedy, to be presented at McKissick's Opera House, on the evening of May 30th, by home talent. Remember "Ours!"

Mary Netley Miss Minnie Smith
Jennings Miss Mattie Snow

IRRIGATION IN NEVADA.

"The chief of the Public Lands Division of the Interior Department says that from 15,000 to 20,000 square miles of rich agricultural land may be reclaimed in Nevada by a system of storage reservoirs.

It appears from this that official attention has been drawn to the agricultural possibilities of Nevada. It has commonly been thought that Nevada was an irretrievably desolate region, and that it might have to surrender its rights as a State and return to the condition of a Territory. But it contains 20,000 square miles of irrigable land and it is anything but a worthless desert.

There is reason to believe that if a large part of its land were reclaimed from aridity, Nevada would be one of the most favorably thought of among all the States in the Union. The climate in the southern part is almost tropical. That section of the State would be a paradise for fruit growers. The vine and the olive would flourish. The warm air and the clear skies would make life a continuous summer of delight. But in order that all of this might be realized, a large area would have to be brought under cultivation. Otherwise there would not be sufficient population to make trade active, and to secure the social advantages and pleasures which are unknown in the sparsely settled community. The Senators from Nevada could well afford to devote, practically, all their time to securing appropriations for the construction of irrigation reservoirs and canals. If successful, the result would soon be seen in a rapid increase in the population and wealth of the State.

The Eureka Sentinel comments as follows:
We find the above article in a Colorado paper. It is mainly true. There is not an inter-mountain region of the same extent in all the West that has as much rich agricultural land as Nevada; but it is of course practically useless without water. The day will come when Nevada will be one of the great grain, fruit and vegetable producing States of the Union. It may not come in five, ten, or twenty years, but it will surely come when the lands not requiring irrigation elsewhere shall have been taken. But occupation and settlement can be hastened by favorable legislation by Congress.

THE DENVER CONGRESS.

The Omaha Bee remarks:
Governor Cooper, of Colorado, has a most ambitious scheme in mind. He wants the Governors of Western States to aid him in calling a "Western Congress" at Denver, which shall discuss what efforts must be made to secure Government aid in building reservoirs for irrigating purposes west of the Missouri. The project sounds very much like the Texas deep harbor scheme, in which the Government is to pay out millions in the construction of a deep water harbor on the coast of Texas. The reservoir plan is even more stupendous. It contemplates reclaiming the arid regions from the headwaters of the Missouri to the Mexican Gulf. It is true Congress appropriated some two hundred and fifty thousand dollars to carry out the preliminary work of this grand conception, but it is a question, nevertheless, whether the national Government would embark in a venture that might involve a greater outlay than DeLespess's Panama canal, and may in the end prove just as impracticable.

The San Francisco Alta takes another view, saying:

Governor Cooper, of Colorado, has called "a Congress of influential men of the West," to meet in Denver, this Summer, "to take steps to insure the West getting its proper share of public money from Congress for internal and river improvements." California is the Empire State of the West, and is the natural leader of all such movements as New York leads in the East. Colorado has nearly reached the maximum of her population, while California may easily be the home of ten millions of people. Our Congressional delegation will always outnumber that of any State west of the Rocky Mountains, and we should lead and not follow in all movements looking to the interest of the Western half of the continent. We hope the State Board of Trade will send Mr. W. H. Mills to the Denver meeting that he may say these things to it.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhea, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle.

"Both Been There Before."

The Sierra Valley Leader says:
Town property in Reno is rising in value. Reno is favorably located to be a thrifty growing town, and in the near future it will be called the city of Reno and the metropolis of Nevada.

WHAT ON EARTH
Is the reason people will not, can not or do not see any difference in cheap nostrums put up by cheap John houses or irresponsible parties at enormous profits, rather than take a medicine of world wide reputation and one that is giving universal satisfaction at 25 cent price? No medicine in the world is giving such unparalleled satisfaction for purifying the blood as BRUGG'S BLOOD PURIFIER AND BLOOD MAKER, and every bottle that does not do its work will cost you nothing.

OSBURN & SHOEMAKER, Druggists.
When Baby was sick,
We gave her Castoria.
When she was a Child,
She cried for Castoria.
When she became Miss,
She clung to Castoria.
When she had Children,
She gave them Castoria.

ROYAL BAKING POWDER
Absolutely Pure.

This powder never varies. A marvel of purity, strength, and wholesomeness. More economical than the ordinary kind, and cannot be sold in competition with the multitude of low test, short weight, alum or phosphate powders. Sold only in cans.
